©2023 Sol-Millennium Medical Inc. All rights reserved.

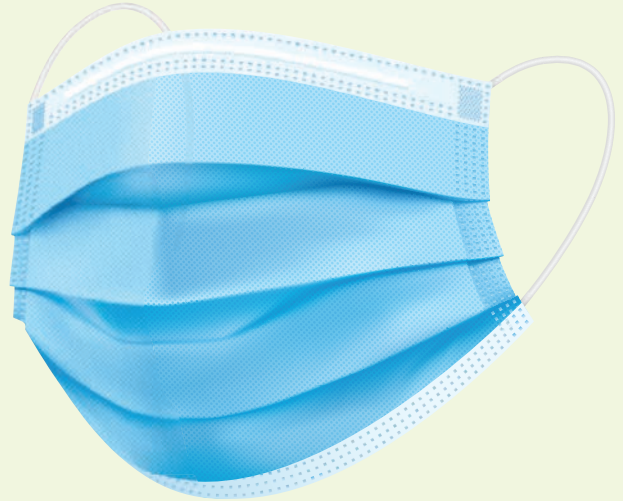

Sol-Millennium is a vertically integrated global medical supply company with locations across the globe. We are one of the world's largest manufacturers of needles and syringes and have a comprehensive line of medical supplies.

Our innovative technology reduces needlestick injuries, saves on medication expenses and enhances both clinician and patient experience. Our international sales team is dedicated to delivering knowledge and outstanding customer service. Our goal is to work together as partners in the healthcare industry, focusing on a healthier tomorrow.

► Table of Contents

	Masks & Respirators	3-16
	Gowns	17-28
	Lab Coats	31-32
	Headwear	33-36
	Footwear	37-38
	Disinfectants	39-40
	Diagnostics	41-42

Masks are categorized into 3 levels according to ASTM F2100-20.

These different levels make it easy to determine the best face mask for every procedure and environment.

ASTM Level 1

ASTM Level 2

ASTM Level 3

For protection against
LOW amounts
of fluids and spray

Cost-effective
masks for
general use

For protection against
MODERATE amounts
of fluids and spray

Standard mask
for surgery and
general use

For protection against
HEAVY AMOUNTS
of fluids and spray

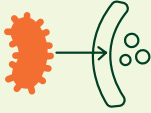

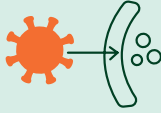

Meets the highest
performance levels
for optimal protection

To meet ASTM standards, our masks undergo a series of tests for fluid resistance, bacterial filtration efficiency (BFE), particle filtration efficiency (PFE), and breathability (Delta P).

	 Fluid Resistance (mm Hg) Resistance to penetration by synthetic blood	 Bacterial Filtration Efficiency (BFE) Ability to filter particles 3.0 microns in size.	 Particle Filtration Efficiency (PFE) Ability to filter particles 0.1 microns in size, including viruses	 Delta P (mm H2O/cm2) Measures the breathability of the mask
	Fluid Resistance	BFE	PFE	Delta P
Level 1	80	≥ 95%	≥ 95%	< 5
Level 2	120	≥ 98%	≥ 98%	< 6
Level 3	160	≥ 98%	≥ 98%	< 6

● ASTM Level 1 Medical Face Masks

Soft and breathable face mask with comfortable earloops.

Features:

- 3-ply SMS filter material
- Nose clip
- Earloops

ASTM Level 1

Reference Number	Description	Box	Case
MSK003X	Sol-M ASTM Level 1 Medical Mask	50 pcs	2,000 pcs

● Protective Face Masks

High-quality face mask, packaged for retail sale with 20 masks per box.

Features:

- 3-ply SMS filter material
- Nose clip
- Earloops
- Retail packaging

Reference Number	Description	Box	Case
MSK003XR	Sol-M Protective Mask	20 pcs	2,000 pcs

● **ASTM Level 2 Surgical Face Masks**

Comfortable and durable surgical face mask available with either earloops or ties that is appropriate for use by healthcare workers.

Features:

- 3-ply SMS filter material
- Nose clip
- Available with earloops or ties

Reference Number	Description	Box	Case
MSK003X2	Sol-M ASTM Level 2 Surgical Mask w/ Earloops	50 pcs	2,000 pcs
MSK032	Sol-M ASTM Level 2 Surgical Mask w/ Ties	50 pcs	1,000 pcs

Available with ties.
MSK032

MSK003X2

● **ASTM Level 3 Surgical Face Masks**

Comfortable surgical face mask available with either earloops or ties that has a high-level of fluid resistance for environments with an increased risk of splash or droplet exposure.

Features:

- 3-ply SMS filter material
- Nose clip
- Available with earloops or ties

ASTM Level 3

MASKS & RESPIRATORS

Reference Number	Description	Box	Case
MSKEA30W	Sol-M ASTM Level 3 Surgical Mask w/ Earloops	50 pcs	1,000 pcs
MSKET30W	Sol-M ASTM Level 3 Surgical Mask w/ Ties	50 pcs	1,000 pcs

Available with earloops.
MSKEA30W

MSKET30W

● Surgical Face Masks with Eye Shield

ASTM Level 2 or 3 surgical face mask with attached eye shield to protect the face and eyes from droplets, splashes, and particles.
Available with either earloops or ties.

Features:

- 3-ply SMS filter material
- Nose clip
- Eye shield
- Available with earloops or ties

ASTM Level 2

ASTM Level 3

Ref. Number	Description	Box	Case
MSK034	Sol-M ASTM Level 2 Surgical Mask w/ Eye Shield & Earloops	50 pcs	500 pcs
MSK033	Sol-M ASTM Level 3 Surgical Mask w/ Eye Shield & Earloops	50 pcs	500 pcs
MSK036	Sol-M ASTM Level 2 Surgical Mask w/ Eye Shield & Ties	50 pcs	500 pcs
MSK035	Sol-M ASTM Level 3 Surgical Mask w/ Eye Shield & Ties	50 pcs	500 pcs

MASKS & RESPIRATORS

Protective film to preserve transparency that is peeled off before use.

MSK033

● Children's Face Masks

Protective face mask with earloops that is sized for children and in retail packaging. Protective masks meet ASTM Level 2 and come in yellow or green. There is also a flat-fold mask available in fun dinosaur prints.

Features:

- 3-ply SMS filter material
- Adjustable nose clip
- Extra soft and wide earloops
- Retail packaging
- Colorful

Extra soft earloops

Available in yellow and green.
KMSK001, KMSK002

Ref. Number	Description	Box	Case
KMSK00150	Sol-M Children's Protective Mask – Yellow	50 pcs	2,000 pcs
KMSK00250	Sol-M Children's Protective Mask – Green	50 pcs	2,000 pcs

Flat-fold in assorted dinosaur prints. MSK048

Ref. Number	Description	Box	Case
KMSK001	Sol-M Children's Protective Mask – Yellow	10 pcs	600 pcs
KMSK002	Sol-M Children's Protective Mask – Green	10 pcs	600 pcs
MSK048	Sol-M Children's Dinosaur Flat-Fold Mask	10 pcs	500 pcs

RESPIRATORS

What's the difference between a mask and a respirator?

Mask

Masks protect both the wearer and patient by acting as a **barrier** to body fluids, droplets, and particulate matter.

Respirator

Respirators protect the wearer and patient* from **airborne particles**, including viruses and bacteria, by utilizing a tight seal against the face and high-efficiency filtration materials.

* Respirators with valves will not be effective in protecting patients and the environment from airborne particles.

● N95 Respirators Cup-Shape

N95 respirator that is NIOSH certified with cup-shape design and unique adjustable headband. Available with or without valve.

Features:

- NIOSH certified
- Cup shape
- Adjustable headbands
- Nose clip

Ref. Number	Description	Box	Case
YQD8008	N95 Respirator Cup-Shape	15 pcs	270 pcs
YQD8008V	N95 Respirator Cup-Shape w/ Valve	15 pcs	270 pcs

YQD8008

Optional valve
for improved breathability.
YQD8008V

● N95 Respirators Flat-Fold

N95 respirator that is NIOSH certified and meets ASTM standards for surgical masks. Economical and comfortable flat-fold design with adjustable nose clip that fits a wide variety of faces.

Features:

- NIOSH certified
- Meets ASTM surgical mask standards
- Flat-fold
- Headbands
- Nose clip

Ref. Number	Description	Box	Case
US9502001	N95 Respirator Flat-Fold	25 pcs	600 pcs

● N95 Respirators from GIKO

N95 respirator that is NIOSH certified with cup-shape, nose clip, and familiar headband design. Great for smaller sized heads and faces.

Features:

- NIOSH certified
- Cup shape
- Headbands
- Nose clip

Ref. Number	Description	Box	Case
1200H	N95 Particulate Respirator Cup-Shape	20 pcs	480 pcs

Gowns are categorized into 4 levels according to ANSI/AAMI PB70:2012.

These different levels allow you to choose the appropriate amount of protection for your clinical setting.

AAMI Level 1

AAMI Level 2

AAMI Level 3

AAMI Level 4

For protection against
MINIMAL
fluid exposure

Recommended for:

Visitors Basic medical care

For protection against
LOW
fluid exposure

Recommended for:

Critical care nursing units
Short procedures with limited fluid exposure

For protection against
MODERATE
fluid exposure

Recommended for:

Critical care nursing units
Burn units
Decontamination Surgery

For protection against
HEAVY
fluid exposure

Recommended for:

Surgeries with high fluid exposure and pressure on the gown such as:
Hip replacements
C-sections
Cardiac bypass

GOWNS

To meet AAMI PB70:2012 Standards, our gowns undergo a series of tests including spray impact, hydrostatic pressure, penetration by blood-borne pathogens, and/or penetration by synthetic blood.

	 Spray Impact Resistance to water spray	 Hydrostatic Pressure Resistance to water under pressure	 Penetration by Blood-Borne Pathogens Resistance to penetration of microorganisms	 Penetration by Synthetic Blood Resistance to penetration of blood
	Spray Impact	Hydrostatic Pressure	Penetration by Blood-Borne Pathogens	Penetration by Synthetic Blood
Level 1	≤ 4.5g	---	---	---
Level 2	≤ 1g	≥ 20cm	---	---
Level 3	≤ 1g	≥ 50cm	---	---
Level 4	---	---	Pass	Pass

SURGICAL GOWNS VS. ISOLATION GOWNS

Surgical Gowns

Surgical gowns are designated as Class II medical devices by the FDA and are intended to be worn by healthcare workers during surgeries. The gown protects the wearer from the transfer of microorganisms, body fluids, and particulate matter.

Critical zones of protection on a surgical gown can be seen in Fig. 1 and include the front of the body from shoulders to knees and arms from the wrist to elbow. These areas must be protective according to AAMI PB70 standards.

All of Sol-Millennium's surgical gowns meet clinical standards and are:

- Sterile in a wrapper with a hand towel
- Folded according to OR standards
- Include a passcard on the waist belt for sterile donning

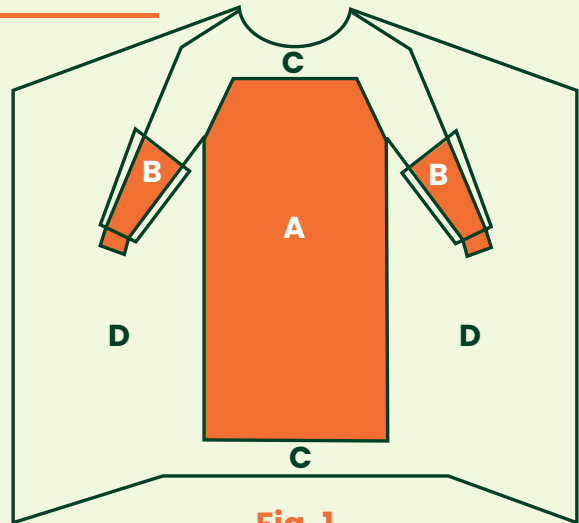

Fig. 1

Zones A & B must be included in the critical zone.

Zones A, B, & C must be at least AAMI Level 1.

Isolation Gowns

Non-surgical isolation gowns are designated as Class I medical devices by the FDA and protect the wearer from the transfer of microorganisms and body fluids. These gowns **are not intended for use in surgeries or invasive procedures**.

Isolation gowns also differ from surgical gowns because the critical zone extends 360 degrees around the gown, as seen in Fig. 2, and must meet the AAMI PB70 standards of protection.

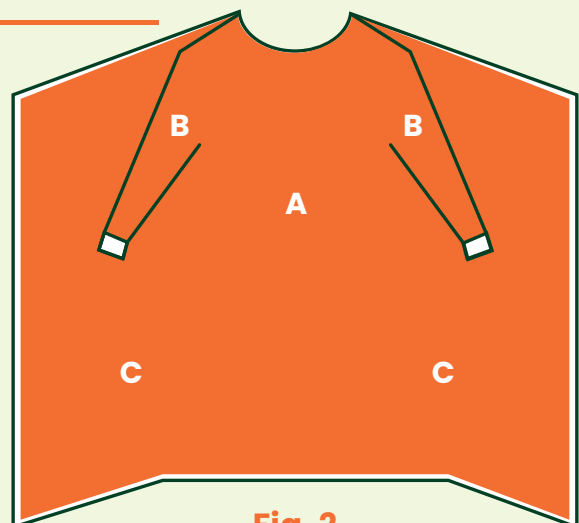

Fig. 2

The entire gown, excluding cuffs, hems, and bindings must be at least AAMI Level 1.

● Protective Gowns

Protective gown constructed from economical SPP with an overlapping back that provides 360 degrees of coverage. Appropriate for preventing the spread of infective agents for non-healthcare workers and in lower risk environments.

Features:

- Spun polypropylene (SPP) material
- Elastic cuffs
- Neck ties
- Belt ties

Ref. Number	Description	Size	Bag	Case
I30IU2111	Sol-M Protective Gown	Universal	10 pcs	100 pcs
I30IXL2111	Sol-M Protective Gown	XLarge	10 pcs	100 pcs

Ties at the neck for adjustable fit.

Standard belt ties.

GOWNS

● AAMI Level 1 Isolation Gowns

AAMI Level 1 isolation gown made from a breathable SMS material with familiar tie design and elastic cuffs.

Features:

- SMS material
- Elastic cuffs
- Neck ties
- Belt ties

AAMI Level 1

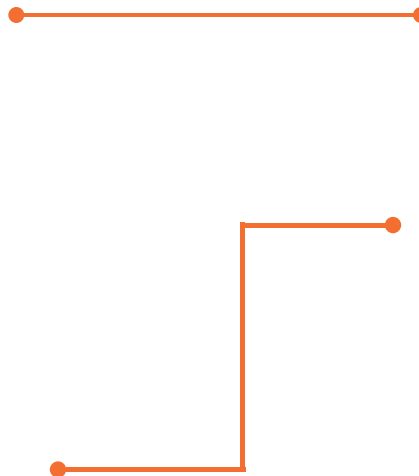

Ref. Number	Description	Size	Bag	Case
IG232U1111	Sol-M AAMI Level 1 Isolation Gown	Universal	10 pcs	100 pcs
IG232XL1111	Sol-M AAMI Level 1 Isolation Gown	XLarge	10 pcs	100 pcs

Ties at the neck for adjustable fit.

Standard belt ties.

● AAMI Level 2 Over-the-Head Isolation Gowns

AAMI Level 2 isolation gown made from a premium SMS material that is both breathable and fluid-resistant. Over-the-head construction makes donning quick and convenient. Neck seam is designed for easy tear-away that makes doffing clean and safe for the wearer.

Features:

- SMS material
- Elastic cuffs
- Over-the-head
- Easy tear-away doffing

GOWNS

Ref. Number	Description	Size	Bag	Case
IG004XS	Sol-M AAMI Level 2 Isolation Gown Over-the-Head	XSmall	10 pcs	100 pcs
IG004S	Sol-M AAMI Level 2 Isolation Gown Over-the-Head	Small	10 pcs	100 pcs
IG004	Sol-M AAMI Level 2 Isolation Gown Over-the-Head	Large	10 pcs	100 pcs
IG004XL	Sol-M AAMI Level 2 Isolation Gown Over-the-Head	XLarge	10 pcs	100 pcs
IG004XXL	Sol-M AAMI Level 2 Isolation Gown Over-the-Head	XXLarge	10 pcs	100 pcs

Convenient over-the-head design.

Thicker and wider waist band ties.

● AAMI Level 3 Isolation Gowns

AAMI Level 3 isolation gown constructed from poly-coated SPP that is highly fluid-resistant. Hook and loop neck closure for easy donning and doffing with durable binding. Premium knit cuffs and wide belt ties at the waist.

Features:

- Poly-coated SPP material
- Knit cuffs
- Hook and loop neck closure
- Belt ties

Ref. Number	Description	Size	Bag	Case
IG433U2133	Sol-M AAMI Level 3 Isolation Gown	Universal	10 pcs	50 pcs
IG433XL2133	Sol-M AAMI Level 3 Isolation Gown	XLarge	10 pcs	50 pcs

Easy hook and loop neck closure.

Premium knit cuffs.

● Protective Coveralls with Hood

One-piece coverall with hood that is both breathable and protective. Zippered front opening with flap for additional fluid protection.

Features:

- Microporous polypropylene and polyethylene material
- Knit cuffs
- Elastic ankles
- Zippered opening

Ref. Number	Description	Size	Case
PCN003XNTM	Sol-M Protective Coverall w/ Hood	Medium	25 pcs
PCN003XNTL	Sol-M Protective Coverall w/ Hood	Large	25 pcs
PCN003XNT	Sol-M Protective Coverall w/ Hood	XLarge	25 pcs
PCN003XXNT	Sol-M Protective Coverall w/ Hood	XXLarge	25 pcs

Flap to cover the zipper and improve fluid resistance.

Comfortable knit cuffs.

GOWNS

● AAMI Level 3 Sterile Surgical Gowns

AAMI Level 3 surgical gowns made from 5-ply SMMMS material with hook and loop neck closure, waist belt, and passcard. Sterile in a wrapper with hand towel.

Features:

- Knit cuffs
- Hook and loop neck closure
- Belt ties with passcard
- Sterile wrap
- Hand towel

Packed according to standard operating room procedures.

Ref. Number	Description	Size	Case
IG0035	Sol-M AAMI Level 3 Surgical Gown SMMMS	Medium	50 pcs
SIGA321	Sol-M AAMI Level 3 Surgical Gown SMMMS	Large	50 pcs
SIGA322	Sol-M AAMI Level 3 Surgical Gown SMMMS	XLarge	50 pcs
SIGA323	Sol-M AAMI Level 3 Surgical Gown SMMMS	XXLarge	50 pcs

GOWNS

Easy hook and loop neck closure.

Premium knit cuffs.

Passcard to maintain sterile donning.

● AAMI Level 4 Sterile Surgical Gowns

AAMI Level 4 surgical gowns are available in two materials.

1. An advanced breathable viral barrier material that protects against fluids and pathogens while remaining comfortable by releasing heat and vapor.
2. A 5-ply non-woven SMMMS material with poly-coated reinforcements in the critical zones, which is a lighter weight gown that still meets AAMI Level 4 surgical gown standards.

Both options are sterile in a wrapper with hand towel.

Features:

- Knit cuffs
- Hook and loop neck closure
- Belt ties with passcard
- Sterile wrap
- Hand towel

Available in Two Styles:

AAMI Level 4 Surgical Gown with Breathable Viral Barrier

AAMI Level 4 Reinforced Surgical Gown

Zones A and B, represented by the dark blue, are reinforced with a poly-coated SMS fabric.

GOWNS

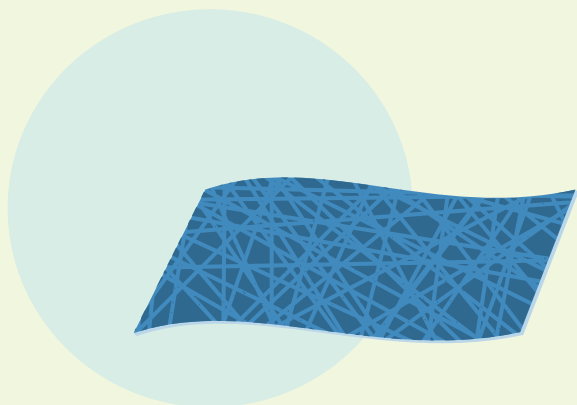

Easy hook and loop neck closure.

Premium knit cuffs.

Passcard to maintain sterile donning.

Ref. Number	Description	Size	Case
SIGA405	Sol-M AAMI Level 4 Surgical Gown w/ Breathable Viral Barrier	Medium	28 pcs
SIGA401	Sol-M AAMI Level 4 Surgical Gown w/ Breathable Viral Barrier	Large	26 pcs
SIGA402	Sol-M AAMI Level 4 Surgical Gown w/ Breathable Viral Barrier	XLarge	26 pcs
SIGA403	Sol-M AAMI Level 4 Surgical Gown w/ Breathable Viral Barrier	XXLarge	24 pcs
IG0036	Sol-M AAMI Level 4 Reinforced Surgical Gown	Medium	50 pcs
SIGA411	Sol-M AAMI Level 4 Reinforced Surgical Gown	Large	50 pcs
SIGA412	Sol-M AAMI Level 4 Reinforced Surgical Gown	XLarge	50 pcs
SIGA413	Sol-M AAMI Level 4 Reinforced Surgical Gown	XXLarge	50 pcs

EXPLANATION OF PPE MATERIALS

Fluid Resistance

SPP

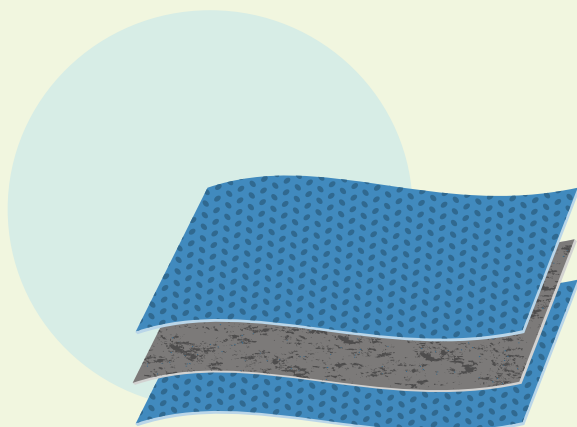

Spunbond Polypropylene

SPP or Spunbond Polypropylene is polypropylene plastic that is melted down, then extruded through small holes to create super fine fibers. These melted fibers are then randomly laid and bonded to create the thinnest and most breathable PPE fabric. SPP provides excellent comfort, but has the least fluid-resistance.

Benefits:

- Lightweight
- Very breathable

Fluid Resistance

SMS

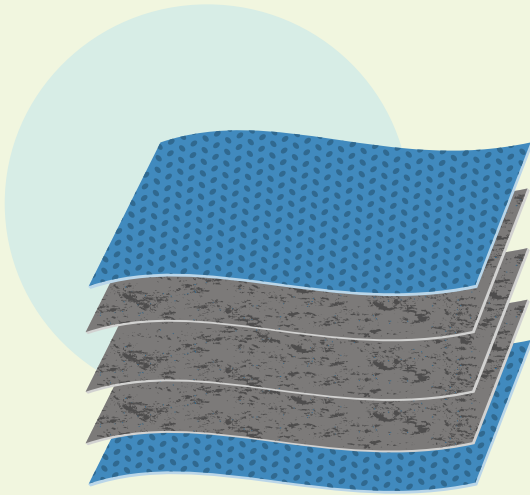

Spunbond-Meltblown-Spunbond

SMS or “Spunbond-Meltblown-Spunbond” is a 3-ply material made from two sheets of spunbonded polypropylene with one sheet of meltblown polypropylene in the middle. It is thicker than spunbond polypropylene and its meltblown layer acts as a better barrier against fluids and particles.

Benefits:

- Durable
- Breathable
- More resistant to fluids and particles
- Appropriate for numerous applications

Fluid Resistance

SMMMS

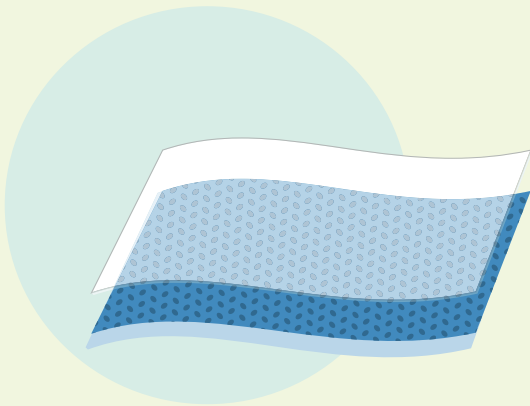

Spunbond-Meltblown x3-Spunbond

SMMMS is similar to SMS, but is made from two layers of spunbonded polypropylene and three barrier layers of meltblown polypropylene. This fabric is highly fluid resistant and can meet AAMI Level 3 standards.

Benefits:

- More durable
- Highly resistant to fluids and particles
- Can meet AAMI Level 3 standards

Fluid Resistance

Poly-coated SPP

Polyethylene Coated SPP

Polyethylene Coated SPP or "Poly-coated SPP" is highly protective with added fluid resistance and particulate protection provided by a polyethylene coating. The polyethylene acts as a plastic shield to defend against any high velocity spray.

Benefits:

- Superior barrier qualities when compared with standard SMS or SPP
- Added fluid resistance and particulate protection

● 3-Pocket Lab Coats

Lab coat made from a 3-ply SMS fabric that is fluid-resistant with anti-static properties. They have soft knit cuffs and collar, snap closures at the front, and are knee-length.

Available in white and blue color.

Features:

- SMS material
- Snap button front closure
- Knit cuffs
- Knit collar
- Knee-length
- Available in white and blue

LAB COATS

Snap closure.

Convenient
3-pocket design.

**ALSO AVAILABLE
IN BLUE COLOR.**

Premium knit cuffs.

HEADWEAR

Protective Face Shield

Face shield that has excellent transparency with anti-fog material, soft-foam headband for comfort, and adjustable fit. Protects the wearer's eyes and face from body fluids, spray, and droplets.

Features:

- PET plastic with anti-fog
- Foam headband
- Adjustable

Ref. Number	Description	Box	Case
FS9132	Sol-M Protective Face Shield	1 pcs	300 pcs

● Surgeons Hood

Surgeons hood made from SPP that is lightweight and breathable, utilizing elastic bands for a universal fit.

Features:

- SPP material
- Elastic bands

Ref. Number	Description	Box	Case
SGCWH01	Sol-M Surgeons Hood	100 pcs	500 pcs

● Beard Cover

Beard cover that utilizes elastic bands to easily fit around the face and chin. Made from a lightweight and highly breathable SPP material.

Features:

- SPP material
- Elastic bands

Ref. Number	Description	Box	Case
SGCWB01	Sol-M Beard Cover	100 pcs	1,000 pcs

HEADWEAR

● Bouffant Caps

Disposable SPP bouffant cap with elastic band that is both lightweight and breathable. Available in 3 sizes: 21", 24", and 27".

Features:

- SPP material
- Elastic band
- Disposable
- Available in blue or white color
- 3 sizes

Ref. Number	Description	Size	Box	Case
BFCB21	Sol-M Bouffant Cap – Blue	21 inches	100 pcs	1,000 pcs

**ALSO AVAILABLE
IN WHITE COLOR.**

● Surgeons Cap with Ties

Disposable surgeons cap with ties for an adjustable fit. Made from durable SMS with a lightweight SPP top, providing optimal comfort and protection.

Features:

- SMS and SPP material
- Ties
- Disposable

HEADWEAR

Ref. Number	Description	Box	Case
SGCBT01	Sol-M Surgeons Cap w/ Ties	100 pcs	600 pcs

Adjustable ties.

Shoe Covers

Shoe covers made from durable SMS material that comes in both medium and heavy weights. Anti-skid bands provide traction on the bottom of the covers. Intended to be worn over shoes to prevent the spread of contaminants.

Features:

- SMS material
- Medium or heavy weight
- Elastic cuffs
- Anti-skid traction

Ref. Number	Description	Size	Box	Case
SC002U	Sol-M Shoe Covers – Medium Weight	Universal	100 pcs	300 pcs
SC002XL	Sol-M Shoe Covers – Medium Weight	XLarge	100 pcs	200 pcs

● Boot Covers

Boot covers that cover both the foot and lower leg. The leg portion is made from SMS and the foot portion is made from a heavyweight poly-coated SPP for additional water-resistance.

Features:

- SMS and polycoated SPP materials
- Elastic bands
- Lower leg coverage

Ref. Number	Description	Size	Box	Case
SC004U	Sol-M Boot Covers	Universal	50 pcs	150 pcs
SC004XL	Sol-M Boot Covers	X-Large	50 pcs	150 pcs

Infrared thermometers for assessment of COVID-19 infections.

Fevers are a symptom of COVID-19 and can occur 2-14 days after infection. Non-contact temperature assessment devices, such as infrared thermometers, are an effective way to take people's temperatures with numerous advantages over other methods of measurement.

Benefits:

- Fast temperature readings to assess large numbers of people
- Minimal cleaning between uses
- May the reduce spread of COVID-19 infections
